- Provision of Cost-efficient Medical Service to the community at large.

Apart from the above mentioned, various lectures on Homoeopathy and cases have been artfully delivered both at national and state level conferences as well in various colleges across India.

ABOUT DR. B.T. RUDRESH

Dr. B. T. Rudresh, a classical practitioner of homoeopathy has completed 3 decades of committed service to the multitude who have thronged to him for an effective cure. His affinity for homoeopathy was founded at a time when the world was yet to crown Homoeopathy with the glory it holds today. It can be mightly said that his contribution to the system in Karnataka has catalyzed the metamorphosis of Homoeopathy towards acceptance as a scientific system of curing.

At a time when homoeopathy was at its lowest ebb and was thirsting for worthy proponents to further its cause, Rudresh came as a saving grace. Today Dr. B.T. Rudresh’s selfless service at Ashwini Homoeo Clinic, Gandhi Bazaar has benefited lakhs of patients enormously. Most of

who take appointments two months in advance, 150 to 200 patient a day, waiting for hours, all this to ensure that they gain a sure cure from the healing touch of Dr. B. T. Rudresh.

Dr. Rudresh initiated his career as a serious student of Homoeopathy, which he continues to be even today. His hands on experience in a leading allopathic hospital, the clarity of knowledge gained while teaching homoeopathy as a lecturer and his understanding of human nature added to the experience provided by the vast patient populace from all walks of life and chiseled an approach that is noticeably individualistic in him. This has endeared him to all his patients.

From common cold to cancer, including diabetes, hypertension, renal failure, Infertility, allergic asthma's and such, he treats all possible patients who are curable through medicine. He had rushed to the capital and successfully cured many patients suffering from an outbreak of dropsy and laid norms of treatment to his colleagues there. It would not be wrong to surmise that Dr. B. T. Rudresh has become synonymous with Homoeopathy in Karnataka. He has truly etched himself as a person whose responsibility towards society has ushered in a vast response from the populace of Karnataka and those who have benefited from his noble services in the rest of the world.

Dr. B. T. Rudresh has rightly been addressed as the torch bearer of Homoeopathy by his patients and the public alike. An unending string of patients who got a second lease of life from their maladies are reasserting the faiths of their beloved ones to Dr. B.T. Rudresh and through him to Homoeopathy. The success rate in his patients has made the right thinking people in society viz., professionals, media persons and the layman to acknowledge his immense contribution that has changed the face and forum of homoeopathy the world over ushering in a new era of Homoeopathy and health to all who walk in to its folds through him.

When the Karnataka Homoeopathy Board resolved to construct office space with sufficient infrastructure for futuristic needs of the functioning of the Board, Dr. B. T. Rudresh used his good offices with the state government to get land in prime locality, with a market value of more than twenty crore rupees sanctioned free of cost to the Board. The financial burden of the construction is being entirely borne by the earnings of the Board, which also got lots of savings through his conscientious decision NOT to accept any remuneration that is due for him as the President of Board. This itself is a huge corpus of Fifty lakh rupees, which in fact is his contribution to the homoeopathic profession in our state. Further, he has also ensured that an officer is posted with additional charge from government service to the post of Registrar of the Board. This tactical move has helped us save around thirty-five lakh rupees in the past two years. Therefore, collectively, he has managed to build a corpus of nearly one Crore Rupees, since he took over as the President of Board.

Dr. B. T. Rudresh was invited for a Guest Lecture at the International Academy of Classical Homoeopathy, Alonissos, Greece in the year 2017. The invitation was conveyed personally by

Prof. George Vithoukas, the world-renowned expert in homoeopathy, and who was impressed by the volume and success of Dr. Rudresh, especially in the area of treating infertile couple. The guest lecture was scheduled during the annual gathering of international doctors at the Postgraduate Course that the Academy conducts for doctors with medical qualifications. Doctors from more than thirty-three countries from across the globe attend this course to update their knowledge of homoeopathy.

In such an event, Dr. Rudresh was invite as the guest speaker to share his experiences in treating a range of conditions, with a major focus on the 3000+ cases of infertility that he has successfully handled. The presentation was hailed as exemplary representation of Hahnemannian principles by all the participants. After the session, Dr. Rudresh was approached by many of the doctors who are specialists in various disciplines and who were eager to understand the secrets of his successful and voluminous practice in India. He has also been conducting regular Webinars for homoeopathic doctors from across the globe since 2016.

In all, he is now recognized to be a fontal torchbearer in all aspects of homoeopathy, yet it is now known to the world at large that he has excelled himself in all spheres of societal interaction and is a much sought-after person who has become a personality by endearing himself to causes beyond homoeopathy, for he is now known as a documentary maker, publisher, public orator, counselor, columnist and the such. He has gone beyond and has sacrificed his very being to the upliftment of society.
